

# The Richmond Vein Center Team

The Richmond Vein Center opened in 2004 and is focused on treating venous disorders including spider veins and varicose veins.

We are proud to announce that we are one of the very few centers in the Richmond area performing The VNUS® Closure® procedure for the minimally invasive treatment of symptomatic varicose veins. Dr. Gould has performed over 500 VNUS Closures, the most in the Richmond area.

The Richmond Vein Center is a division of West End Surgical Inc., located on the Henrico Doctor's Hospital-Parham Campus. West End Surgical Inc. is a comprehensive surgical practice specializing in General and Vascular Surgery.

## **Dr. Charles F. Gould, II**

Dr. Charles F. Gould, II, obtained his medical degree from Downstate Medical Center-State University of New York. He received his general surgery training at San Francisco General and Kaiser Hospitals in San Francisco and went on to complete a vascular surgery fellowship at the University of Southern California.

He has served as Chairman of Department of Surgery at Health South Medical Center from 1996-2000. He currently is Medical Director of the Vascular Laboratory at Henrico Doctors Hospital-Parham Campus where he has served since 2001.

His interests include the treatment of breast, colon, intestinal and stomach disorders, hernias and gallbladder surgery, stereotactic breast procedures as well as the entire spectrum of vascular disease, including the VNUS® ClosureFast™ procedure.

Dr. Gould is Board Certified in General Surgery and has been in private practice in the Richmond area since 1990.

Prior to moving to Richmond, Dr. Gould served as Clinical Instructor of Surgery at University of California, San Francisco from 1985-1990. He is a fellow of the American College of Surgeons, a member of the Society for Clinical Vascular Surgery, American College of Phlebology and the Richmond Medical Society of Virginia.

## **Vascular Technologists**

The Richmond Vein Center has two very experienced vascular technologists who perform the doppler examinations and help make an accurate assessment of your venous problem. They also actively participate in The VNUS® ClosureFast™ procedure.
